

Applied Responsible Investment for Fiduciaries

Manila, November 2025

Enhance and empower your fiduciary role in the age of sustainable investment

How do trustees effectively navigate responsible investment while best fulfilling their fiduciary duties? PRI Academy's comprehensive two-day training, **Applied Responsible Investment for Fiduciaries**, helps to answer this critical question with depth, practicality, and regional relevance.

This immersive course equips trustees and other fiduciary roles with the knowledge, tools, and confidence to effectively oversee responsible investment strategy and implementation. Going beyond theory, the program focuses on practical application through hands-on exercises, in-depth case studies, and collaborative problem-solving.

Course objectives

- Converse comfortably on sustainability-related discussions in an investment context
- Apply responsible investment principles within a fiduciary setting
- Develop and implement effective responsible investment policies
- Inform the selection, appointment, and monitoring of external managers in accordance with your responsible investment policies
- Exercise stewardship rights across different asset classes
- Address climate-related financial risks in your investment strategy
- Navigate emerging regulatory requirements and stakeholder expectations

Course benefits

- Comprehensive two-day format allowing for deep engagement
- Extensive case studies featuring real-world examples and outcomes
- Interactive group exercises simulating trustee decision-making scenarios
- Expert facilitation from PRI Academy's industry-experienced trainers
- Networking opportunities with peers facing similar challenges
- Certificate of completion from the world's leading responsible investment educator
