

# Responsible Investment Essentials

## ***Build your knowledge of key responsible and sustainable investment concepts***

In today's rapidly evolving investment landscape, understanding environmental, social, and governance (ESG) considerations is no longer optional—it's essential. The ***Responsible Investment Essentials*** training program provides fiduciaries and trustees with a comprehensive introduction to key responsible investment principles and practices.

Developed by PRI Academy, the global leader in responsible investment education, in association with APAFS, this focused, one-day program delivers practical knowledge you can immediately apply to your role. Through interactive exercises, case studies, and expert instruction, you'll gain clarity on the vital sustainability concepts that matter for your work.

## Course objectives

- Define and distinguish between key responsible investment terminology and approaches
- Understand the business case for ESG integration and its connection to fiduciary duty
- Identify financially material ESG factors relevant to different investment sectors
- Explore effective stewardship and active ownership practices
- Apply responsible investment principles within existing governance frameworks

## Course benefits

- Condensed, high-impact format designed for professionals
- Regionally relevant examples and case studies
- Interactive, discussion-based learning environment
- Practical tools and frameworks to implement immediately
- Expert instruction from an experienced industry practitioner
